(i) Traditional layers

Input ↓	Generation and Signing of Transactions	Transactions · Contracts **Transaction Layer**
↓↓↓	Validation and Distribution of Transactions	Validation Rules **Validation Layer**
↓↓↓	Ordering and Encapsulation of Transactions	Consensus Algorithm **Block Generation Layer**
Saved ↓	Global View of the Chain	Mined Blocks **Distribution Layer**

(ii) New aspect of PoT

Input ↓	Generation and Signing of Transactions	Transactions · Contracts **Transaction Layer**
↓↓↓	Ordering and Encapsulation of Transactions	Consensus Algorithm **Block Generation Layer**
Saved ↓	Global View of the Chain	Mined Blocks **Distribution Layer**
↑↑↑	Validation and Distribution of Transactions	Validation Rules **Validation Layer**
